

Model: LST Equipoise SOLO

Instructions and assembly Information

For indoor use Only. Use on a level surface.

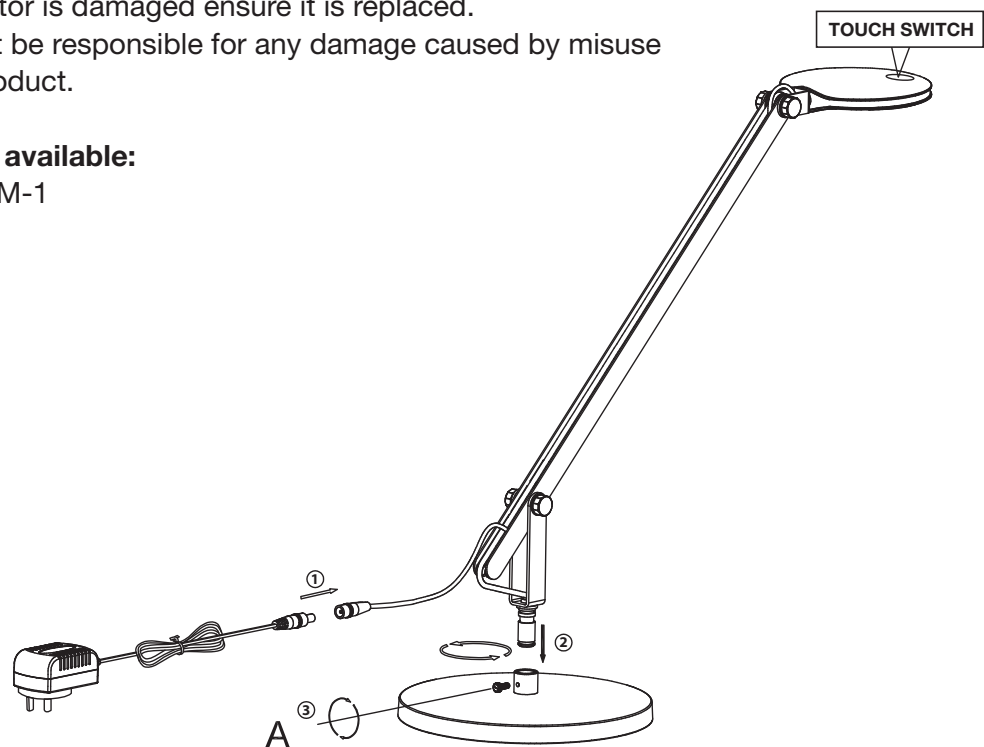

- Unpack Lamp Arm assembly and Heavy Round Base.
- Place the Lamp Arm with 12.5mm diameter Pin into the lamp base.
Retain the Lamp in Base by tightening the thumb screw. To secure well use a screwdriver.
- Please use only with the Plug-In Power supply supplied.
Connect the cord by pushing the co-axial Cord Connectors together before plugging into your wall socket.
- To switch ON, Touch  on Top of Lamp Head.
- The lamp has 3 selectable light levels 10% > 50% > 100%
- Each Touch steps up the Light level.
- Touch again to turn OFF.

Important:

- The 2 Wing Knobs at the bottom of Lamp must be adjusted as desired so the Lamp stays in position when moving to different positions.
- Clean the lamp with a dry cloth.
- This product has an Integral LED and has no user serviceable parts. Do not dismantle.
- Do Not cover the Lamp or place against flammable materials.
- If the Power supply adaptor is damaged ensure it is replaced.
- The manufacturer will not be responsible for any damage caused by misuse or modification of this product.
