

Model: WL1135-SC

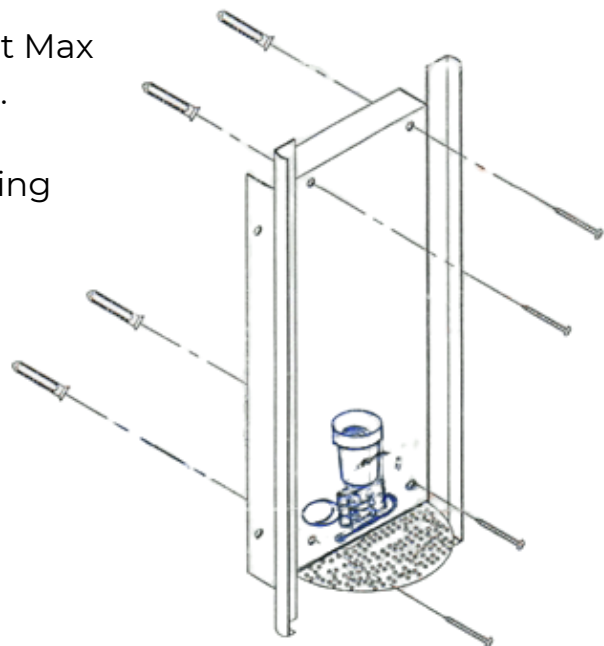

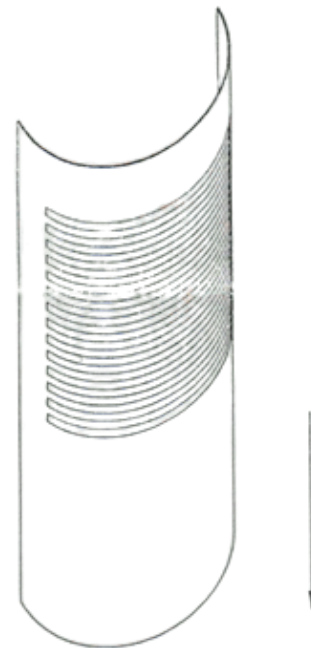

METAL E27 WALL LIGHT

Installation Instructions

IMPORTANT: THESE LIGHT FIXTURES MUST BE INSTALLED BY A REGISTERED ELECTRICIAN. ISOLATE POWER SUPPLY BEFORE INSTALLING.

- Remove cover and diffuser by sliding upwards
- Bring wire through hole in back plate
- Fix metal Backplate to wall using 4 fasteners. Use fasteners suitable for the substrate the light is being mounted onto.
- Connect power supply cable: Phase to **P**, Neutral to **N**, Earth to **⏏**.
- Install bulb: E27, LED only, 20 Watt Max (A60 GLS lamp style recommend).
- Replace cover and diffuser by sliding down.

IMPORTANT KEEP INSTRUCTION SHEET IN A SAFE PLACE FOR FUTURE REFERENCE.
