Earth to 

Models: CL2021, CL2022, CL6121

- These models can be ceiling or wall mounted
- Twist glass to remove and reassemble
- Fix through the 3 mounting holes using appropriate fasteners
- To maintain IP44 ingress protection ensure that the cable entry hole and mounting screw holes are sealed.

Models: WL1674, WL1273

- Wall light only
- Mount high enough to be out of reach of children or pets.
- Also consider they are mounted out of the way of where they can be easily knocked to reduce possibility of glass breakage.
- Fix metal bracket to wall using suitable fasteners
