

Model: WL31

Oliver Wall Light

Installation Instructions

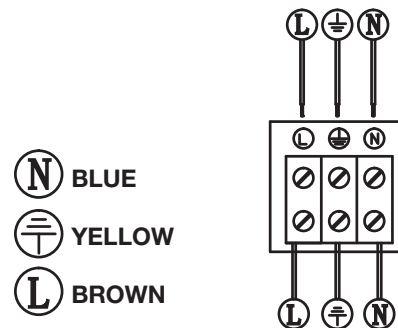

IMPORTANT:

**This product should be installed by a registered electrician.
Isolate power supply cable before commencing installation.**

Read the entire instruction sheet and ensure you have all the tools and materials required before installing:

1. Wire power supply to terminal block.
Connect Earth, Neutral and Phase (L) wires.

2. Two brass screws are supplied to mount the swing arm bracket directly to the wall through the holes in the base. Ensure screws are fixed into a solid material or appropriate anchors are used. You may need to source alternative screws yourself if the ones supplied are not suitable for your installation scenario.
3. Unscrew mounting ring from lamp holder and place light shade onto the lamp holder and screw mounting ring back on to hold shade in place.
4. Insert B22 light bulb up to a Maximum 100 Watt incandescent or Max 12 Watt LED.

IMPORTANT:
Keep this instruction sheet in a safe place for future reference
