

Installation Instructions

Model: **Hollywood Light LED**

Triac Dimmable

These lighting fixtures must be installed by a registered electrician.

Isolate the electrical power supply before installing.

- Consider they are mounted out of the way of where they can be easily knocked to reduce possibility of injury or breakage.
- IP20 – Ensure installation complies with local wiring rules.

1. Fix metal bracket to wall in 4 places using suitable fasteners.

2. Connect power supply cable:

Phase to **L**

Neutral to **N**

Earth to 

3. Fasten body to bracket tightening the 2 screws at the ends.

4. If using a dimmer switch, only use Triac type dimmer switches.

Maintenance: only clean with a soft cloth and water.

Do not use soap or spays as this may damage the materials and finishes.

Keep instructions with owner for future reference.
